

exer07_fileIO_key.py

1 Read a file

- 1.1 Read StateoftheUnion.txt
- 1.2 Output each word on its own line

2 Sum a file

- 2.1 Read IntegerFile.txt, which has many numbers on one line.
- 2.2 Calculate the sum, and the mean. Hint, the int() function turns a string into a number.

3 File copier

- 3.1 Copy <http://www.ubertool.org/index.html> to a file on your local disk.
